

## Better Halves

### February 14, 2025

00:00:00 [Music] And now, Raw Dog Comedy presents Lisa An's Valentine's Day with Matt [Music] [Applause] Rfe. Happy Sweetest Day to you. It is Valentine's Day and I am Lisa Anne right here for the Raw Dog comedy Lisa Anne Valentine's Day special. I am joined by the one and only, the man I have not yet met because I absolutely had to stand up a date the night that he was performing. Matt Refe is here with me on the road between a tour. Matt, how are you today? I'm wonderful. How are you? Such a prestigious intro. Thank you. Well, you

00:00:38 know, I I have to build up because our whole thing. So, discovering you has been magical because it made me feel like I kind of live under a rock. I'm not as good at TikTok yet. And since I watch the same things, you know, the algorithm is just feeding me more of people's pets, a lot of nature stuff, um, and some healthy cooking. Um, but now that I've landed on comedy, I see like you are the biggest thing I've ever seen on TikTok and I really regret not meeting you in person at the AVN Awards.

00:01:09 Uh, well, first of all, why thank you. I did it all without having to dance to a [ \_\_ ] camera in my room. So, that's very exciting. Um, I can't believe I didn't get to see you at the AVN. I was so disappointed. I wrote like five minutes of material about you. What was great was as I stood up my date, I went to a friend's house to watch football because of course, you know, there was some great games that night, Saturday night, and my friends were giving me playbyplay and they're like, "There's

00:01:33 this hot [ \_\_\_ ] comedian." And by the way, we can swear, right? Okay. Cuz on sports radio and I'm not allowed to swear this hot [ \_\_\_ ] comedian. He's talking about you. And I'm like, "Oh my god, what a panty dropper. Like, tell me more." And the texts just coming in and they were so they were so vibrant and beautiful. And then I thought, what an actual tool the date looks like that I stood up. So I had to stand up Young Gravy. And I'll give you a brief one. Like you know, we we collabed a little

00:01:58 bit, did some social media stuff. I saw a show. I loved him. He's so cool, right? And we had a great time when we were here in New York, but I made the mistake of like bringing him to Vegas during ABN. Got a little lost in the sauce. And you know when when you look at me, not to sound like conceited, but let's be real, I'm I'm out and there's just all these randoms and he's like hanging on all these girls. And I on the second night I said to my friends like, "I got this sick ass [ \_\_\_ ] gear. The

00:02:22 fit I'm wearing that night, I dropped so much money. I can't stand next to him now because he's been with everybody else." And so I had to bail. And uh when I did, I regretted it because there you were. I could have just made a scene and ran up on stage and made out with you. I would have um came uh that would have uh I don't I don't think there could have been a possible better Vegas experience than that. I kind of hate that you even threw that out there as a possibility cuz now I hate how well the

00:02:50 trip actually went because it didn't even come close. Well, cuz that was my response to all my girlfriends who were texting me the playbyplay of your show. I'm like, "Oh, so you're telling me I'd be making out with him right now. I would be disroing one piece at a time, panties off first." They're like, "Yeah, you would. I'm about to do it for him, too." like you gave two good hours of text convos with me and a large group of girlfriends and you are fabulous and you're on tour right now. I see you've

00:03:17 been everywhere. You just landed to do this Valentine's Day special for here. Um where are you now and where have you been recently? Um I was just in uh Hartford, Connecticut this weekend at the Funny Bone Mayor. We had You have to say it's Hot. Is it Hot? Is that close to Boston? Oh god, the New England accent is such a turnoff. Um, we were in Hofford for uh three days. We had six soldout shows there. Uh, and then we just landed in Buffalo. We've just got two tonight. And then I go to DC tomorrow through

00:03:54 Valentine's Day, which is my favorite city in the entire country. I'm obsessed with DC. Uh, then Atlanta, back to LA, Vancouver, back to LA, Oxnard, Pittsburgh, Raleigh. It's it's an insane year. So, uh, I was very happy that I was able to, uh, squeeze this in and do this with you. Uh, so you got your miles on your mind and your mind on your miles at this point, right? The airline miles. Got to be racking up for our future vacation together. Literally say when I'm saving up for us to go to the moon. I'm pretty sure I'm

00:04:22 I've got to be close. Like, there's so many. I don't really know what to do there. Are there day spas on the moon? Like, are we going to go out and see some strippers? Like, we need to know what our venue is. But the moon is a great idea. I love how you're thinking. Um, speaking of strippers, in Buffalo, there's a strip club. I want to say it's called like Christies or something, but the Buffalo wings are what everybody comes in for. So, you're at this strip club and they're super spicy. And as a

00:04:45 as an entertainer, when you're on stage and it's men and women, and you're watching people eat wings, which is kind of a weird experience as you're trying to be sexy and get naked, right? And the they're so spicy that your my eyes were burning to the point where my lashes fell off. That was my experience in Buffalo with the wings at the strip club and

women just putting them in their mouths. I've never seen anything like it. Just pulling it out with just bones. I also have just recently seen

00:05:11 this where people eat like especially the flats that they eat them like vertically. Yes. I can't tell if it's so hot or like the first sign of a serial killer like cuz it's wrong, right? Well, yeah, because aren't there little pieces on there that you don't eat? like the fat like cartilage and tendons and [ \_\_ ] Yeah, I don't understand it. And it and it was my boy Paul who I saw do it and I was like, "Dog, we've been friends for like eight years. You don't have a gag reflex this whole time. We could have

00:05:41 been way closer as friends." Yeah. Because when we eat them, we eat them sideways, right? When they eat them straight up in there and then it happens for a minute, they're usually looking around and then it comes out and you're like, "What the fuck?" Yeah. I I don't understand it. I mean, does it does it take more skill like like like tying a cherry stem in a knot? Like it seems way more intricate. Yeah, it does. It's It also seems like a lot of sucking power. Like definitely you're not just eating

00:06:07 them and using your teeth. You're you're sucking. Yeah. H have to be. I mean, honestly, you should honestly teach a class. We should work on this together. Just a just a chicken wing devouring class. Yeah. I don't eat chicken wings. They're a little bit too fatty. Not intentionally dense enough. Um I gave up chicken wings in 1994. Haven't had one since. Yeah. Yeah. Is that a Is that a real year? Uh, it's a real year. Uh, were you born yet, honey? Uh, the next year. I heard good things about 94,

00:06:34 though. Yeah. I was already doing scenes. I was already practicing for you. You were just a thought and I was like, "Let me get the work in and practice as much as possible." And that brings me to Valentine's Day because hopefully a lot of practice. I picture a lot of people having amazing sex on Valentine's Day. You'd hope so. You really would. I have had Let's see. I think I've I've been in a relationship for three Valentine's Day and all three of those I w was either like having the worst argument, we scrapped the entire

00:07:06 day because we were fighting or we had broken up on Valentine's Day. I've never had a successful Valentine's Day. Oh, well, you know what? I know you're traveling this year, but let's mark it on the calendar for 2024 and make sure that I can give you the most supreme Valentine's Day. We've got some really great questions here, Matt. I'm not sure if you got to look over these, but we collect them via Twitter, via email, and I will say there are pages on pages. Um, can I read them to you and uh you can

00:07:32 give me we'll go kind of a little back and forth banter here. Absolutely. Serenade me. I'm going to serenade you. So, this is from Gabs. I'm about to turn 30 next week and I'm a virgin waiting till marriage. I will tell my dates very early on that I'm waiting, but go back and forth on dating people who I know aren't living the same lifestyle as I am. Can I just say my heart just pinged a little bit. I can only imagine how much sex I had by 30. I'd love to meet a 30-year-old virgin and just wonder how

00:08:02 much else they've gotten done. Like, do they have more time to run their errands? Like, they're [ \_\_ ] reading. They speak eight languages because I've been [ \_\_ ] you know, but collection expecting this very much so. I've had guys say they're willing to wait for me, but they never make it past 3 months. That being said, I'm assumed guys wouldn't be interested in waiting and later find out they claim they would be. Is it worth dating guys who aren't living the same way but choose for me? What's the overunder, which I love a

00:08:34 betting twist was thrown in here on me actually getting a boyfriend by 40. Somebody p poured their whole life into this. I know. I had to read it first. Um, this is uh that's

tough. I mean, like I mean, if we're giving you like a genuine answer, there are people out there who would definitely wait. I just found out uh he's a newer friend, but a friend I've hung out with more than a hand few of times. Um, we just went on like a vacation together a few weeks ago. He's 25 and he just told me that he's a virgin and he and his girlfriend

00:09:08        are waiting till marriage to have sex. And at first I was like, "O" and then second I was like, "Hold on. So you've you don't know what that feels like." And my first instinct is like is to panic because I go, "What if you love this person, right? You're so obsessed with this human being. You can't wait to lose your virginity to them and like have this experience with them. And what if it's awful?" Yeah. But then, but then I realized I was like, you have no comparison. So, I mean, by this point,

00:09:34        as long as you've seen everything, maybe felt things hands-wise or mouthwise, like you you scoped everything out, I I assume it'd be fine, right? But, well, you're both going in without any preconceived notion, right? So, neither of you know. Like, if you remember your first time, for me, it wasn't great. I mean, I just remember my friends talking about how great it was, and they all did it before me. And then when I went to do it, I was like, "Was that really that great?" Um because you don't know what

00:10:01        you're doing yet. You don't have that experience. Oh, of course. So, at 30, do you think that's something you're like, do you think you would lose the excitement for it a little bit? Well, I mean, as our bodies go through different things, we're like peeing at some ages, not peeing at others. I want I want to drive the whole course. You know what I'm saying? Like, I want to be on the all terrain and the smooth. Here's what I would say. I'm sure that there's some sort of apps or networking groups on

00:10:27        Facebook because I really think that Gabs wants to stay with someone that aligns with her values. That's what's important. So, I can't really give an under over because you have to be very selective about the group of people you're engaging with to be able to, you know, you're really you're really threading a needle. Right. Right. you know, and yeah, I I want Gabs to have this because Gabs waited so long and I hope Gabs speaks multiple languages um and has read many books, but at the same time, my heart breaks for Gabs because

00:10:56        some of the most fun I have had has been just with sexual friendships and adventures through those friendships. No, that that makes entirely good sense. Uh and at 30, it's like keep going at this point. Like the hardest part is over your most hormonal years where you're like craving [ \_\_ ] somebody, I would assume, are starting to wind down a little bit. For women, women come into that. Women do reach later, don't they? What What age do you think it was for you or is for you? I would say I really

00:11:27        I'm not I've always been very sexual. So, it went from different levels, but I would say in my 30s, I peaked that next level, you know, like I was like, you know, I think I want I think I want to have a DP. You know what I mean? I think I want to try some different things. So, I think I want to try anal. I didn't try anal until I was in my 30s. So, I think that's when I got like that next level. But, Gabs, we are we are here for you and we want you to have the life that you want to have. That's the most

00:11:51        important thing. So, you're going have to do some networking, but I can only imagine like you're a guy, you're on a date, you're paying for it, and the girl's like, "So, I don't want to have sex with you till I'm getting married." Guy gets salty. Guys get salty at me when I don't want to have sex on the first date. H Yeah. I mean, it's definitely un Fortunately, it's not something you can like it's not something a guy should expect, but it is in our nature to be like, "Yeah, eventually like if I'm going on a date

00:12:16 with you, I'm physically attracted to you. If I'm physically attracted to you, I'm going to want to sleep with you." All right. With my friends. Exactly. Exactly. Eat chicken wings vertically like a psychopath and can really swallow some meat. Yes. But so you're I mean she's definitely like you're you're narrowing your barrel of of people who are going to want to do that, but you just have to that's something you have to be cognizant of. Like you know your options aren't going to be as vast, but

00:12:41 it's out there. Yeah. And you're going to have to really search out a group of people like you. All right, let's go to one more. We're going to throw to a comedy spot in a second. Uh before we throw to anything, you have an amazing comedy special right here for all of us. I'm spending Valentine's Day with you on every level because what I will be doing after this is I will be going to [mattrifeofficial.com](http://mattrifeofficial.com). You can also stream it on [moment.com](http://moment.com). But your Valentine's Day, what does it include that I need to look forward to?

00:13:12 Uh this is my secondh hour comedy special that we self-produced and directed uh with just me and my group of friends. It it is going live February 14th, 9:00 p.m. Eastern time on Moment. Uh, you can find the tickets on my website, [mattrifeofficial.com](http://mattrifeofficial.com). There's like meet and greet options. There's a live Q&A after. It's going to be uh, it's really, really fun. I am so there. I cannot wait. Okay, Michaela has something for us, and this is really, let's go in your wheelhouse. How do you cope with being

00:13:39 in a relationship with someone that doesn't get your sense of humor? Have you personally experienced this with, especially in your profession? Can't wait for the new special, Matt, right? Look at this, Michaela. Oh, Michaela, so sweet. Um, yeah, that's a tough one. I mean, that's especially for me, it's it's a non-negotiable dealer breaker. Like my entire relationship, like I I love a good like roast banter, you know what I mean? I I need some back and forth because like that mean that's how I flirt is immediately like little little

00:14:13 jokes with you. And if you're not going to get that or it goes over your head, it's just going to be confusing for everybody. And like I I have a very specific sense of humor. Like there's plenty of girls that I've gone on dates with that I'm like what you're amazing and like you're you're stunning but like that one little piece is missing and it's that little piece is kind of everything to me. Uh so for me it's it's kind of non-negotiable. I completely depends on what you're into and you know you can tell when somebody doesn't get

00:14:40 when you're meeting new people and you're being you. Your friends know you. They get your jokes. They know your timing. They know the [ \_\_ ] you talk and what how you mean it. It seemed like you're chatting with someone like back in the AOL AIM days. Remember AIM on the sidekick? That thing would flip open and you'd be like, "Let me see who's up in here." Um, you had to wait. You know, it's like when the text bubble comes up. So, when I'm with someone new and I'm making my jokes and I'm doing my thing

00:15:06 and they're looking at me like they're trying to sift through it, I'm like, "Oh, yeah. This is this is DOA. This is dead on arrival. We're done here." Oh, yeah. You know who You know who consistently has great humor of people I've dated? British people. Oh yeah. Oh yeah. British people have such a great sense of humor. It's dry. It's dark. It's it's exactly what I want. That's what I was going to say. It's dry and it's dark. They are witty and emotionless. So they don't they're not what good with tells, right? All right.

00:15:34 So we're going to throw a little bit of comedy right here. And we are going to go to Dave Ael right here. And we are back right here. Raw dog comedy, Lisa Ann's Valentine special with my sexy friend Matt Refe. You're gonna watch that special. I know that's what I'm doing because it's going to make a good Valentine's Day for me since I'm still going to owe

you your good Valentine. I mean, how about a little FaceTime after your show Valentine's Day night? May I put on something sexy for you? I'll

00:16:02       literally cancel the show right now. Are you kidding me? I I You keep letting me know these are options far too late down the line. Like I won't throw away my entire life. It's never too late and I'm never going to make you reschedule work that's so unprofessional. It's not my jam. You're going to do your thing and we're going to make it happen in between. I'm going to go way out of my way for this just like Dia did right here with her question. I love all these submissions, okay? Cuz this is a good

00:16:27       one. I go through this a lot. You probably do, too. So, my boyfriend has a big problem with my guy friendss and said guys never just want to be friends with their girlfriends. Should I be suspicious since 80% of his friends are girls? Oh, this is uh this is one of my favorite questions somebody could possibly ask because I have such an issue with this and I don't feel like it gets addressed appropriately often enough. A huge red flag for me is if a girl had a lot of guy friends. Because here's the thing.

00:17:00       No. If you're an attractive girl, a guy is not going to be just your friend with zero alternative u intentions. It's just not possible. Like we are not wired to appropriately handle that. And we're going to we're not going to be a true friend to you because we always at the end of the day we want to [ \_\_ ] you. Unless and this is a big this is a big butt. Unless you are ugly. That is the one exception in in which case you are just a homie with a ponytail. Okay? Like that's that's all it is to there.

00:17:36       There's no in between spectrum of like yeah I'm just I'm just a good friend. So I want to [ \_\_ ] you or I would I'll give you a noogie. Like there's just no in between. Okay. Did you say a homie with a ponytail is like the best [ \_\_ ] ever. Um here's the thing where it might be a Now let me just say my say here because I get this a lot. I have a ton of guy friends. Okay. I have a ton of guy friends, but a lot of my guy friends have we've had the open conversation and they're like, "Look, everybody's always

00:18:05       trying to [ \_\_ ] you and I know you don't need more of that." And they've always been solid guy friends. Like when I have my standard once in a while there's a stalker situation in my life, I can hit up any of my guy friends, they'll meet me at my apartment and they'll walk all my errands with me and they've never been weird with me. So, like I'm in this like limbo thing because I do have so many guy friends that I would never interact with and they'd never throw me. Now, there have been times where after

00:18:31       years I realize this guy is starting to throw me that like, yeah, he would [ \_\_ ] me, but and I don't want that cuz that would change everything. But, so I I'm on I'm 50/50 with this, but if a guy is telling you this and then he has a lot of girlfriends, then I would say don't trust him. Unless all of those girls are ugly. Yeah. And then then it's like, well, yeah, I think it all comes down. I think it comes down to acknowledgement. Like that's the biggest thing that annoys me is when a girl is

00:18:56       like, "What? Him? No. No. He doesn't want to sleep with me." It's like, "No, cuz here's the thing. If you don't acknowledge it, that means he's winning. That means he is playing the game correctly cuz he's convinced you you're safe and he's a good friend." And that's such [ \_\_ ] So to flip the script, the only thing that I could do is try to come on to every one of my guy friends one at a time and see who makes a play. I think all of them would would make a play. Even the gay ones would be like,

00:19:21       "Well, let's just see what it's about." All right, on that note, we've got a voicemail here. Let's see what our guest wants to say to us right here with a little message. I just have to

ceue it up. You got this, Paul. I have faith in you. Now, we also have to just make sure since it's playing through the board op computer if he doesn't get feedback. So, we'll just check this real quick. Okay. Are you able to see me? Is my camera being weird? No, I can see you. You look beautiful. You're such a stunner. Such a beautiful

00:20:02        Where have you been all my life? Oh, um, watching from afar. What do you mean? Literally waiting for a DM. Now that we've met, like we're closer than I realize. Like so, you know what I mean? Like that's a good thing. And you've watched Couldn't agree more. Look at Look at compatibility. Compatibility. When's your birthday? September 10th. I'm not one of those people that's going to ask you the time. Cuz my guy friendss have told me that when girls ask them their birthday, it's cuz they want to do

00:20:26        their birth chart. And there's all these like gypsy crystal girls out there now that they talk about. I'm like, "When did this start?" I was in Denver and my Denver guy friends all said to me like, "Yo, there's so many gypsy girls out here. You ask somebody their birthday, they think you're going to want to do their birth chart." I'm like, I don't know what this is about, but if we could do more questions, I'll run up and feed it through the system. So, it won't it won't feed through. Dan, you want to hop

00:20:46        on the board? So, uh we'll just uh instead of converting to the uh voicemails yet, uh we could keep going down the questions. I'll be right back. Sorry. Okay, no problem at all. We got a good one here. By the way, go ahead. By the way, the birthday astrology stuff. [ \_\_ ] boy. Play number five. Any any guy who knows about astrology is a [ \_\_ ] boy. The only astrology I know is because of their tools that I have used to be like, "Oh, yeah, totally. Yeah, yeah, I just I get you lying. [ \_\_ ] boy." All right. Right here we got

00:21:16        another one. This is from Daniel. And I think Daniel may or may not have watched some of my film, Googled me multiple times, and uh may follow me on Only Fans. Daniel says, "How difficult was it to hold down a serious relationship in the height of your adult film career?" Side question, what's your favorite type of music? And Tupac or Biggie? So, I was never in a relationship during my entire porn career. The only time I got into a I've only been in one serious relationship my whole life so far. I've

00:21:52        only lived with one guy. Uh we were together for seven years. We were married. We're still friends. We talk on our wedding anniversary, birthdays, what have you. Uh we just celebrated our 20 year anniversary even though we're divorced. So like we're the best exhusband, ex-wife, never had kids, just, you know, changed, whatever. Um but I couldn't do it. I couldn't go to set cuz there were times I tried to date and I realized I had too much guilt about like I couldn't release completely on set. like I wanted to just be a free

00:22:22        spirit on set and I felt like with a man at home like I just didn't I couldn't and I admired everybody that could be in a relationship while they were in the business cuz of course not as lonely. Um but I I was getting such great sex on set that I was like why would I really want to deal with a guy um at home like uh do extra laundry and all but I'm going to work. I'm having great sex. I get to have my place to myself. So that's really how that played out. I didn't try it. That's so fascinating to me and I I I

00:22:51        had a very similar question the AVNs I met so many of the performers and so many of them are married. Yes. And it just blew my mind because I imagine that is incredibly difficult as somebody who was wildly insecure and jealous. I I it would drive me insane. I think it would just I was too in I'd be too insecure and jealous as well if I if the shoe was on the other foot. See, that's that that takes like such a strong person to uh to do like like somebody who I hung out with a lot was um Abella Danger's boyfriend and he's

00:23:25        like the coolest guy ever. She would have to obviously that you're getting sworn by fans the whole time. Um he supports her work like crazy and he's just like a strong human being. And I told him so many times I was like, "Dude, props to you, man. I'm I I don't know if I'm man enough to handle that." And you meet a lot of couples in the industry that the husband isn't involved at all. has a totally different career of his own and I'm like, "Wow." Not that they're both performers or Yeah, it's uh

00:23:51        it definitely it wasn't for me, but I also use that time to have a lot of like free relationships. So, I have, you know, guys that I hook up with that I hang out. We're like friends. We enjoy each other's company. We have great sex. And then you don't see them for a couple of months. And when I was on the road, you know, I had security with me. I mean, I mean, you could do the same thing, but you're living in a different world now where it's not as as safe or as easy and you've got to worry about

00:24:15        things. But I would go on stage and just point to the guy that I wanted to hook up with. And I'd tell my security, you go over there and you tell him we're [ \_\_ ] tonight. And then you walk him into the hotel and you tell him that you're going to check on us in 3 hours. And I met so many random dudes on the road like that. It was [ \_\_ ] awesome. What? So is my whole game. A guy would be so that's that's also a huge difference. A girl a woman can do that. A woman can look on any public platform and be like

00:24:41        I want to [ \_\_ ] that guy and everyone is like wow. If I were to go on stage and be like I want to [ \_\_ ] that girl. People be like oh he's so aggressive. He thinks he can just have this girl. But if a guy got a good seat and he's sitting there, you know, getting my attention, maybe he's tipping me, what have you, you could tell the vibe, right? And I would I would be on stage and just right I just look at my security. that's going to be him. Collect his number and then I'd continue to do my show and then

00:25:07        boom. And I had security in the hotel room next to me. So like what's this guy going to do to me? Nothing. There's a credible witness, right? You know, always had condoms. Always. Cuz when you as a woman, I tell my girlfriends this. If you are single and you don't pack condoms, when you pack your [ \_\_ ] luggage, do you know what? You don't have hope. Yep. You have no [ \_\_ ] hope for your trip. Go ahead. Go ahead. Put a baby in you. Yeah. stupid. Yeah, but like have hope that you're going to hook up cuz you're

00:25:35        not going to do it without a condom, right? You know what I mean? So, the second question, type of music. Depends what I'm doing. Uh, working out, I like just gangster rap. Uh, gets me going really hard. When I want to do cardio, I listen to like old school Rage Against Machine Tool cuz the songs are longer and you don't look at the time as much. It's super aggressive like yo, running to Tulle like a 11 minute song. You're like, yes. You know, it feels so good. Um, and then I also listen to a lot of

00:26:00        like super chill music. I'll go back to just like sublime, you know, '9s grunge music. You were too young to really be around at the first swing of that. Um, and to You'd be surprised. Oh, yeah. Oh, yeah. My favorite like my favorite era of music I would say is like 50s through 80s. I love older music. Older music is so fun. And um Oh, I like I would I would [ \_\_ ] the [ \_\_ ] out of you to like The Righteous Brothers. Oh my god. How about some The Temptations when I Oh, some Sinatra Sinatra on Pandora when I

00:26:31        bike ride in Central Park. That's my jam. It just so gives me in the uh when it comes to Big Ear Tupac. Uh I love them both. But one of the reasons I got my first apartment in New York City was cuz when I looked out the window, it looked at the Seventh Street studio where Tupac was shot the first time. And I said to the realtor, I go, "Yo, Tupac was [ \_\_ ] shot in

that doorway. I want to live here." No way. When was this? Uh 2013 when I started working here at SiriusXM. I got an apartment like right across the

00:27:02 street and I had just a studio cuz I would go back and forth from LA to here so I could be in this building to do my shows and it was uh pretty epic. Pretty epic looking out there and thinking, "Yeah, [ \_\_ ] went down there." I graduated high school in 2013. Oh my god. Shut up. That's so cute. I graduated high school in um 1990, same year as the class of '90. No way. And by the way, that's the show that made me move to California. I mean, and I had to do porn in California. [ \_\_ ] yeah. By 16, I was like, when I'm 18,

00:27:37 the first thing I'm doing is putting aside enough money for a one-way [ \_\_ ] ticket, and I'm going to live in California. Porn definitely laid out that possibility for me. See, now I feel like everybody in the industry lives in Miami. Yeah, you can live anywhere now, but back then you couldn't. You know, it was a very small, isolated. It was all in the San Fernando Valley. It was nowhere else. There was no one in Vegas shooting. No one in Miami shooting. It was just right there. You did all of

00:28:00 that. Do we have our voicemail or do we want to go to one of Let's go. Paul is going to bring up this voicemail for us right here. Okay. So, I have known this guy for about a year. He was actually my boss for a year. Um, and he and I were both in relationships when we met each other. So, we didn't really like talk, but we coincidentally broke up with our like significant others around the same time. So, him and I started like cooking up whatever. And he was like really nice at first. He spends like a lot of money on

00:28:35 me. He spends like takes me out on like really really nice dates. He's a millionaire, so he takes me out on really nice dates. But he is the biggest [ \_\_ ] I've ever met. The entire time we've been hooking up, he's which has been like maybe like two or three months, he slept with over 26 women. Oh, good for him. And yeah, I figured like sometimes I feel like, oh, maybe there's something cuz he he's I feel like I'm getting groomed to be honest cuz it's 20 I'm 20 and he's he's 30. And he keeps telling me that he's

00:29:08 like trying to make me like a perfect girlfriend or perfect wife. and he wants me to be like bisexual so bad so that way he can keep hooking up with girls but still have like me as his girlfriend or wife or whatever. I just feel rap and I feel like I'm getting groomed and Matt is probably going to flame me and call me an idiot. So if I am an idiot, please let me know. Um I any if I need to hear it from anyone, it definitely needs to be from Matt Rice to tell me I'm a [ \_\_ ] idiot. Um, okay. That's it. Love you, Matt.

00:29:42 Bye. All right, you [ \_\_ ] idiot. Um, that was fantastic, though. That's uh that's uh what a [ \_\_ ] idiot. Um, no, that's some job. I mean, look, at least you're in a very open position. Like, he's being very honest about it. He's letting you know about all the other women. So, I mean that I don't know if that's a good character or if he just doesn't give a [ \_\_ ] I like this guy, by the way. I like this guy a lot. Millionaire just [ \_\_ ] down 28 girls every 3 months. I mean, he's got to have a swagger about

00:30:21 him. There's got to be some I I imagine there's something beyond his money that's still appealing. So, I mean, I guess it's just it's up to her, you know, like do you want to be in in an exclusive monogamous relationship? And if so, obviously this isn't going to be the guy for you. If he's interested in this many women and trying to and try to bring you in with other women, one woman's not going to excuse me satisfy him. Uh that's Oh, that's tough. Uh but also from a male perspective, I hope he pulls this off. I really do. I hope I

00:30:50 hope he gets a solid foundational girlfriend and it can also just bring in other women. Yeah, I mean winning. Okay, the only right thing for her, only correct course of action

right here is to start [ \_\_ ] other guys because that's how you balance out the scales, right? Unless you want to be this girl um they met in a powerful situation. He was her boss. He's got a lot of money. He's taking he's whining and diner. She needs to be whined and dined by other men. What she should be thinking is, I can attract a millionaire. Yes, he's

00:31:20        probably going to [ \_\_ ] a lot of [ \_\_ ] but I'm going to have a lot of nice meals, potentially do some shopping, and then I'm going to [ \_\_ ] other millionaires. She needs to either play the game completely because she can't surrender. She's going to be miserable. And there may or may not be an STD once in a while that happens, right? Cuz I don't think he's probably wrapping his tool every time cuz that guy is also millionaire. No, the invincible guy that's like, "Oh, it's not going to happen to me." Or, "Oh, I can just do

00:31:46        this." And I'm like, "Yeah, no, no, no, no, no." But um she knows she's in a bad situation, but she's also loving it. And if she doesn't break this habit, she's going to continue to find the thrill of the chaos, what she's looking for in a relationship. And that is never a good place to start. So by her [ \_\_ ] other dudes balances out the chaos she's Yeah. I think she herself Oh, absolutely. Like you you now know what you're worth. Yes. Your [ \_\_ ] is worth at least a million dollars. You've proven that. Um I think you have to

00:32:22        Yeah. [ \_\_ ] the other millionaires cuz like Okay, there's one common denominator. Well, let's see. Is there something about this guy you actually like or was it just the power dynamic of being spoiled? Cuz if so, then like that option's so vast. I agree. But like, you know, does she like the guy personally? I don't know. I I agree with you completely. And it is just that power dynamic is such a big part of it, right? But, you know, she's giddy about it cuz she's, you know, she's eating out nice for her first

00:32:50        time. But, you know, when I was I was going to set one day, it was one of my first big movies. And there was a director, Fred Lincoln, that used to drive me to set. Such a great guy. I lived in Huntington Beach because early on, I knew I shouldn't live in the valley. I didn't want to like fall into the lifestyle. So, I would drive up to LA and I'd stay for like three days and I'd shoot my movie and then I'd go back to the beach. And I would always stay with Freddy's house, him and his wife. He was a director. And one day we're

00:33:14        driving in his truck to set and he looked at me, he goes, "I want to tell you something, Lisa." I'm like, "What, Freddy?" He's like, "With one of those you can get as many of these as you want." That was the dick penis conversation and the vagina conversation. And I was like, "Oh, so you're telling me I'm more powerful than you? That's the conversation we're having right here." He goes, "Yes, you are more powerful than me." And always remember that. I remember being like, "That was a great talk." I mean, that

00:33:38        would have been a great talk coming from a parent at a young age, but he gave it to me. And uh so I want her to know with that beautiful 20-year-old vagina, she can get as much [ \_\_ ] rich penis as she wants. Oh, I forgot she's 20. Yeah. This exper this experience is going to give her so much leverage to manipulate guys her own age when she decides to start dating younger guys. Yes. Cuz they're not going to be able to handle the confidence that she's going to come at come at them with. She's got vagina.

00:34:06        So ultimately, yeah. Yeah, absolutely. You've got the points at this time. You you you've had the experience. You've uh maybe got your heart broken just a little bit. Uh you've been humble, but also a little bit of an ego boost at the same time. A bit contradictory, but it's a it's a powerful position to be in. She and she does not know that she thinks he has the power. But always balancing out, you know, and also the bisexual conversation we should have. That's something that you should want to

00:34:32 explore on your own. You shouldn't really do it for a guy because you're going to feel kind of like an outcast. So, she's going to also have to meet up with a woman. I mean, I've had some great sex with women. I had great sex with women on the road. Like, I would meet these hot women and have great sex. And that really helped me understand what I and and when I was married, we were swingers. So, we had tons of sex with multiple people. It's a time in my life where there was a lot of ecstasy and a lot of group sex. So, like it

00:34:58 throws off my numbers. I really can't give an accurate number when people say, "How many people do you have sex with?" I'm always like, you know, probably between three and 5,000 because there were some years where there was a lot of ecstasy and a lot of group sex. So, I'm not sure what it's a little bit of an exaggeration, but it can be truly I've never felt like more of a virgin. I love it. I will break all of your cherries. Before we do though, let's go to Adam Hunter right here. And we are back right here. Raw

00:35:26 Dog comedy, Lisa Ann's Valentine special. If you are like me, at 900 p.m. tonight, you are going to be watching this sexy, intelligent, very funny man that is with me right here, Matt Refe. You can find that at moment.com. You can get tickets and some after conversation at mattrifeofficial.com. We got another voicemail here. Matt, do you want to do you like taking these calls? Do you remember a voicemail or was yours always automated? You never had like an answering machine at your age, right? I

00:35:56 did. I had a landline for a little bit. Yeah, absolutely. I'm from Ohio, so we didn't get [ \_\_ ] till like 10 years after everybody else did. Like, I'm from Pennsylvania. Everything was behind. That's why 902. I was like, "These [ \_\_ ] have cordless phones. We still have one landline with a rotary in our kitchen with a long cord. This [ \_\_ ] family sucks. I hate all I heard the 70s were rough." Rough. Okay. When people were enthralled to put a microwave to in their house for a [ \_\_ ] baked potato,

00:36:21 I was like, "Is this the life I'm living right now?" A baked potato. This is the most exciting. I can't live without it. the microwave. Yeah, I can't cook anything. Oh, well, that's where I come in. I can cook everything. Before I cook for you, though, let's take another voicemail. Okay. Okay. Hello. Um, what do you think of today's dating culture? Do you think it was better in the past when people only dated one person at a time, or do you think it's better now when people date more than one person at a

00:36:55 time? Why or why not? Thank you. I love your comedy. I love that all of these voicemails have been for Matt. You're welcome. You think you think you're the famous one on this radio show right now? Oh, no. Not on this channel. Not when it comes to comedy. Not when it comes to Tik Tok. Okay. Not when it comes to anything. But interesting question about dating culture. This is This is good. And I love that we have like a little bit of a generational gap to debate this. Yeah. Uh, I'm interested to see what you think.

00:37:27 I I'm a bit of an old soul. I I'm like I'm definitely serial monogamous. Like I only want to be with one person. I want them to only be with me. Um, I mean, I would definitely, this is also just kind of calling back to our last caller as well, like I I would definitely be interested in like bringing in like another girl if that was something she was into. But overall, like actual feelings and commitment wise and developing a relationship, I I I like it old school. I I do think people are a lot more freer and looser um in the

00:37:58 sense of just emotional uh emotional attachments to people. I feel like people can lead on I mean seven, eight, nine, 10 people at a time and just be kind of like keeping people in rotation where you know even just 10 years ago that was much harder to do and just less encouraged I think. So I kind of hate today's dating world as somebody who like wants to

get married soonish. Um, I do think it's harder and there's so many factors that come into play that attribute it to that, but uh, yeah, I prefer I prefer it old

00:38:33 school, I guess. What do you think? I completely agree with you. So, I consider anyone who's dating multiple people actually single, you know, unless you are dating those people and leading them on and carrying on fake relationships. And if you are, I consider that kind of evil, right? Cuz then you're playing with karma. So, you're either having these completely simplistic, open relationships where, you know, you're just enjoying each other's company as friends, but then there's this added bonus of sex, but

00:38:59 it's not dating. It's not intimate. You're not going to them with family wos. You're not telling them when you're not feeling well. There's nothing real and solid about it that makes you feel like you have a person, right? And that's what dating really should be. Dating should be you have a person. It's the person you want to send that last emoji to at night. it's the person you want to tell a good story to during the day. None of these half-ass people dating multiple people can even juggle that or do it properly. And I think it's

00:39:27 become people are doing themselves a disservice because they think, "Oh, if I date multiple people, then eventually I'm going to figure out which one I want to be with." And I don't agree with that. I think if you're dating multiple people, you're not sharing your purest version of yourself with any one of them. And so you have this like all fake kind of things going on. and you can't really get in. You can't get in with them. You don't really get to know them. You don't want to let them in your

00:39:52 heart. They're not letting you in. And so, I do think it was better before. I think people were better at coping with life when they had to cope with one relationship and make it work and go through those moments where it's not great and the and the peaks and the valleys. But everybody wants what's new, right? You can order anything you want right now on Amazon and get it pretty much tomorrow. That's how people feel about dating apps. I'm going to get what I want tomorrow. not work at it, not do

00:40:18 things, not like I'm from like when I was married, every morning I got up before my husband. So he was a late night person. I was a morning person. I would get up, I used to teach spin classes and so I'd be out, I'd do my thing. I'd get coffee with my girlfriends. That was my time. Every morning before I left, I would type him out this letter. I had print shop at the time because I was doing these newsletters for my fan club. I was the first one of my friends in my in the 90s to have a computer. And I would do all

00:40:45 these little um you know instead of like it's it's nice out today, it'd be like a picture of the sun. So I would type up I'd spend 30 minutes while I had my coffee writing this little romantic thing, leave it in the kitchen for him with some like pre-made breakfast like things for him to have. And that was how I started every day because I believe with your with your person, you have to romance it every single day. And he still brings up those letters when we talk. He's like, "That was really the

00:41:11 greatest thing that I was too young to realize was like the greatest thing." You want to be special with one person. Pick pick a wedding date. I'm so in. Are you [ \_\_ ] kidding me? If I was younger than you, I would do it like even when I've had like little So, I tried dating a guy uh a couple of months ago. It lasted about 3 weeks. It didn't work out. He didn't get my sense of humor and he complained a lot. So, that was out. But when I went on a work trip, I actually strategically mailed letters

00:41:38 to him. So, I took one to the post office at a certain time before pickup. Then I took the last one. Then I had someone from my building drop the other ones in the mail. So,

every single day I was going gone, he got a handwritten letter. You're romantic as [ \_\_ ] Yeah, I love doing that stuff. I do it with my That's so cute. And you don't have Valentine's Day cards for all of my friends today and I'll be writing them out tomorrow. That is so cute. You don't That's the thing. You don't have the capacity to do that for seven different

00:42:07 people. like that would drive you and say and it would obviously make it kind of mean nothing. You know, the fact that it's special for that one person is what makes it so great. When you're dating somebody, you have an authentic uh emergency contact person, right? That's your person, right? And so I can understand and I could tell by this call potentially that she doesn't love today's dating culture and that she would like somebody for herself. Yeah. And and there there is a there is a small gray period in the beginning

00:42:35 like there is the talking phase before you're dating. Yep. I think you can go on three to five dates with somebody. I think any any more than like five dates you've been on with somebody, it's like, okay, you you are starting to dri drift into dating territory because I mean, yes, you do need to get to know multiple people. Um, I mean, it's kind of up to your discrepancy as to how you want to overlap them. Like, do you want to be [ \_\_ ] multiple people? Do you want to be seeing multiple people from, you

00:43:01 know, a couple months at a time? There's definitely a cut off for it, but that's really just kind of up to you. and have a discussion with that person. You know, be open about it. Like, yeah, I'm talking to a couple other people right now, but you know, you're in the lead. And I also think that everybody should go at their own pace. So, if when you're start seeing somebody, if you don't want to be talking to other people, don't. And don't feel like you have to do it because they're doing it. Exactly. Let's

00:43:23 go to another question here. We have some highlighted ones. So, these are the super good ones. Okay. Lydia, this is great. Lydia has a simple one. It's a banger. When, by the way, it reminds me of the Seinfeld where George did this. If you were, are you a fan of Seinfeld? Not really. Okay, I get it. Um, he said this and the girl heard him and ignored him. So, Lydia says, "When do you think the right time to say I love you is?" Don't say it when you're on ecstasy and you're [ \_\_ ] I'll tell you that

00:43:55 right now. But it's going to feel the most right then. I promise. Uh, it's going to come out and next thing you know, you're [ \_\_ ] married. Okay. Uh, I would say I might get a lot of flack for this, but I think lovebombing is the dumbest [ \_\_ ] concept in the entire world. I truly believe in speaking exactly how you feel. If you feel like you love somebody after a week or two of like talking to them consistently and you feel like you're really getting a grasp and knowledge of who this person is, I don't

00:44:30 see any problem with it to be honest. It's up to the other person. The other person's allowed to react however they want to react. They can that can scare them. That can maybe they can appreciate the the openness and the honesty, but I believe in saying it as soon as you feel it. I completely agree with you. I think if you're holding it back, then you don't trust that person. Because if you trusted that person, you're playing games. Yeah, you're playing games. But George said it to a girl and she didn't

00:44:53 say it back. So, he knew that he [ \_\_ ] it up because she heard him clearly and it was a great episode. All right, Ryan, we got And we didn't have a lot of guys, so let's get to a guy's question. Ryan, has dating apps ruined actual dating and relationships? Obviously, I can't be on one, so I don't know. But I will tell you this, Matt. When my friends that are on dating apps come over, all I want to do is read the interactions. Guys are really cuz women get so many. It's almost a full-time job, right? Women

00:45:22 will get like all these swipes, right? So, you got to scroll through and like it's just you can just like the creep factor like you can just catch vibes like you know from and there's just so many. And also sometimes I do like to swipe on people when they're not looking so that they get more interactions. But Ryan, I always feel that today the only way to make connections, but women I start seeing remain on the app and believe they are using it as a continuous option. Maybe flaunt their egos. One was actually swiping through

00:45:52 new prospects secretly while I was there. I'm appalled. Oh yeah, that crosses the line. I mean, look, I have some on my phone. I haven't used them in four or five years. You must get a ton of [ \_\_ ] hits though, Matt. Tell me. I don't I don't search them. But but I mean like Oh, but they can leave you I don't even open them. Oh, but what if you did? How many you got? I bet you thousands thousands. It's probably stupid, but I mean that's what Instagram is for. Like Instagram is the best dating app. It's the best dating

00:46:22 app. If you look I can at least get some kind of like insight into your life. You know, I can stop for a couple of weeks. You know what I mean? I can see what you're all about. I can check your friends. I know what's up. Yeah, exactly. that I I I trust that far more. I mean, that's probably where I I mean, I suppose I do the most amount of of work. If I This is hypothetical. If I met a guy on a dating app and then we were hitting it off and he stayed on the app, I'd probably be checking regular.

00:46:49 That would make me insecure. But then if we were actually together and he was back on the dating app, he'd be [ \_\_ ] out the door. We're done here. Oh, yeah. Yeah. Yeah. If you're official like boyfriend or girlfriend, it's like, "Yeah, I don't want to see you on the [ \_\_ ] app." Yeah. You can make that call for sure. So, it's just it's like why even have the temptation nearby? Exactly. It's like Ryan, the girl is saying she's still shopping. She's leaving you in her cart while she walks around to potentially find a better

00:47:16 item. Let's hit on another comedian before we take this last round of questions. And we are going to go with my friend who I just ran into in the building. It is so serious to be in this amazing building and connect with people, Dan Soder. And we are back right here in the sweetest day of the year, Valentine's Day on Raw Dogs comedy special. I love that my name is incorporated, but you know it is Matt when you got to say your own name. It's kind of weird. It's Lisa Anne's comedy special. And guess what? I'm Lisa Anne.

00:47:45 You are Matt Rfe. Lisa Anne will be watching Matt Refe tonight on Valentine's Day 900 p.m. Right. That's when we're launching and I'm getting to watch you and potentially, you know, I might do it naked. I might watch your special naked. I think I should. Oh, Uh my my comedy is best if you're doing little circles. Oh, little circles. And uh so candles going. Um maybe some lotion, you know, just, you know, make sure I'm like really, you know, feeling my smoothest. Uh okay. Okay. So, back to this. We've got some more questions

00:48:14 here. I'm sorry. I can't breathe. How long Kevin wants to know. I love how so many of these men are are really into these. Uh this is serious. How long should you wait within a relationship to take the next step? I.e. propose question mark. Again, go with what you feel. Well, that one I would say 70% go with what you feel. 30% you got to sus them out because when you say I love you to me that shouldn't change much. Um like you I think somebody can be in a relationship relationship with somebody

00:48:51 who like you're in love with them but they're not totally in love with you yet. I think that's fine to be at different levels there, but in order to like commit on that level, you don't want to have to propose again, you know, and you don't want like six months from now to her be like, "Oh yeah, by the way, I accept the proposal you did like six months ago. Now,

now we can do that." So that you have to time it out a little bit better. But I mean, from my experience, I would say a comfortable anytime after like three years, I would

00:49:17 say. Okay. I think three years is like acceptable. Three years is rich. You know, in my generation, it was you dated for a year, you got engaged in a year, you got married on the second year, and you already were starting to have kids. That's how the Italians do it. That's all I know. I did not follow that path. But I did watch 35 cousins get married before they were even old enough to drink. Um, so, and I was just like, "No, this isn't my thing." But here's my advice for Kevin. I think you should meet all of someone's

00:49:44 people before you take that step. I think you should meet their friends. I think you should meet their family. And I think you should feel part of them, right? Really like embody like everything about them. Know their best friend's birthday. Know when people are getting married. And I think once you mesh into that, then the next step, everybody's met you together. Everybody's seen you together. Next step is to propose. I think you also need to see them in different situations in life. You need

00:50:11 to see them when they're extremely angry. You need to see them when they're extremely low, and they're extremely high. You need to see how they react and carry themselves in certain situations so that five years down the line you see them actually get angry for once. You're not like, "Who the [ \_\_ ] is this person?" Because it can show you a whole different side of somebody. It makes me want to ask you, "What's your style of arguing?" Uh, I'm very about communication. The worst thing you could do to me is give

00:50:38 me the silent treatment. I've had exes be like, "I'm blocking your number for a few days until I figure this out." I'll go [ \_\_ ] insane. Okay? I can't handle that. Talk to me so we can figure this out. I don't have a very big ego when it comes to like arguing about something. If I'm wrong, I'll be wrong. I don't have a hard time admitting I'm wrong with stuff. I just want to be able to talk stuff out so that the awkwardness is done. I don't want to linger in three to five to sometimes a week long of

00:51:06 awkwardness of like, hey, are we are we breaking up? Are we still angry about that thing? Like, let's [ \_\_ ] solve it. have makeup cuz you're just burying it under the carpet. You're dragging it out. You could have had a one-hour conversation both way. I asked this cuz I'm not an arguer. I am a communicator. But once somebody raises their voice and it gets like once other words start getting brought in that are unnecessary or other things, that's when I'm like, "All right, this needs to diffuse for a

00:51:33 little bit. Like, you need to relax." Like, I don't like to argue back. And I've learned in my dating style and like in the couple moments where I've tried to like, you know, think I'm going to date somebody, most people have a hard time with that. Like if they get elevated, they want you to be elevated as well. And I'm just not a yeller. Like I'll yell at a cab driver for [ \_\_ ] taking the wrong turn cuz that's part of New York and it's fantastic. I'll yell I'll yell at some I just yelled at some

00:51:58 You know what I've been doing? I'm yelling at all the [ \_\_ ] food delivery guys that are still on the sidewalks in this city. Those are for walking, not for you and your 50 mph bike. I have already knocked six off their bike since like last year and I'm into it. Like I throw their bike down. I scold them. I talk. I'm worried about the little old lady that's walking at a different pace that's going to get hit by them. So I get my Can you imagine just getting scolded on the streets by somebody you

00:52:24 just jerk off jerked off to like 15 minutes prior? I think like I think I would implode. this universe is crossing and it's like the worst Avengers movie of all time. 6 to Midnight. I have

had a couple men that I've scolded tell me that that turned them on. Uh that doesn't make it better for me. But uh we got the uh engagement question. Let's say Steve wants to know, is there any way out of the friend zone or is this a myth? No, the friend zone is Oh, I love this conversation. The friend zone is the

00:52:57 best place for you could for you to be. You get to fly under the radar. She's aware of your intentions most likely. That's why she puts you in the friend zone. You get to fly under the radar. She no longer thinks you're a threat. And now you get to just you just get to showcase your best attributes and show her what a what a good person you are or at least show her the things that she wants to see while she no longer thinks of you as a potential threat, just as a genuine person in her life. That is one

00:53:23 of the most manipulative best places to be for a guy who's trying to win a girl over. Stay in the friend zone. It's a holding pattern for a plane trying to get a [ \_\_ ] gate. You're going to get the gate, okay? You got to circle around a couple times. Just capitalize on your moment. She is honest with you. You see her at her best and her worst. She'll cry to you. She'll she'll she'll complain to you. She'll tell you all her truths while you're in that friend zone. And once she realizes that you can

00:53:49 endure all of it, you're landing that [ \_\_ ] plane. You're getting out of the friend zone. It's a great place to be. I do like 10 minutes on this in the special. This I I love this subject so much cuz people really are so naive about it. And that's the special that I'm going to be watching on Valentine's Day tonight. Yes. Oh, I cannot wait. Learn a little bit. Don't just stare. I'm going to learn. I'm going to learn a lot. I'm not just going to stare. I'm going to take one more till we throw to another

00:54:14 comedian. Well, let's do it. Okay. Any advice for those of us that are going to be lonely on Valentine's Day? You're special. Yeah. I mean, what else what else would you possibly do? I mean, this is a [ \_\_ ] I laid this out for you. I ruled it out for you, man. I just there I I don't know how more obvious of a decision it could be. You You You go to [mattrifeofficial.com](http://mattrifeofficial.com). You buy tickets to watch the live stream on 900 PM Eastern. It's available for two whole weeks after that. uh and just sit there, laugh your

00:54:46 ass off, get cozy, you don't have to leave the house. It's cheap, it's fun, and it's kind of like we're on a little date a little bit. And if you're just like if you're a guy who just needs to plan something for Valentine's Day last minute, fire that [ \_\_ ] up. She's going to think you're romantic and you get to smash on the couch while you pretend she's not thinking about me the whole time. And have it. It's a complete win-win. And so is anything I get to hear from my friend Jim Norton. And here

00:55:12 we are. What a wonderful time this was. Like this was better than any box of candy. Now might have been better if we were actually in person doing this, but then we wouldn't have been talking and we wouldn't have been able to produce such a fabulous show for Raw Dog comedy right here. But Matt, right? No, I just would have been reading lips the whole time. Yes, you would have been reading lips. There'd be a lot going on. By the way, my move at my apartment, so you know, you know it's on. If you come in

00:55:38 and my big screen TV is playing the fireplace on Netflix, okay? Cuz I have a great view of the city. You see a fireplace and then there's music playing. That's when it's like, don't [ \_\_ ] around. Like don't I I'll get you a drink, but like don't [ \_\_ ] around. We got to get one in right away and then we can talk about your day after. So let's talk about your day. You are your comedy specialist. I'm sorry. I can't think of anything else but the inside of your apartment. Um, okay. I'll send you pictures later.

00:56:09        Yeah. Your day. I'm sorry. They They say never meet your heroes. This is This is the best day of my life. I feel like I'm terminally ill.
