00:00:47 outfit that is interesting I hope you contribute the whole show this way great to see you and joining us uh we're very happy to have on this show For the First Time The Great Matt R everybody uh his new special Lucid a crowdwork special is streaming on Netflix you can of course get tickets to see him on tour at Matt rif official.com Matt thanks for coming dude thanks for having me to see both both of you abely thanks man we're happy we're happy you're here um a crowd work special is exciting yeah it's super exciting man

00:01:24 that's awesome dude it's awesome it was a lot of fun we did it in uh Charlotte North Carolina The Comedy Zone there did you pitch them on that like cuz it's it's a it's not the standard right thing um yeah yeah we pitched him on the idea of it cuz my last special came out in November and obviously I'm I'm taking my time to rebuild the next hour and what I'm touring with and everything so I was like crowd workor something I can do anytime anywhere yeah you're so good at crowd work oh thank you dude yeah um I

00:01:51 was like why not just put something out in the meantime like why wait another year until I feel like my special's ready material wise when I can just put out something to the fan right now what goes like what goes into cuz obviously when you do a normal special you're

like I build my hour I tour with it and you go it's ready you shoot it but like when you're going to do you know you're going to do a crowd work do you still like show up that night just with like well whatever happen like or do you have any

00:02:16 type of preparation that goes into it yeah so the stipulation was they were like we we love it obviously this is very Niche to you um but they were like and I and I completely agree they were like we just don't want like a highlight clip you know what I mean like we don't want just random chaos for an hour of just talking about anything and everything they're like there has to be a theme to the show so did a little bit of thinking for a couple of months I played with a couple of Concepts on the

00:02:40 road on my tour and then dreams just kind of came about like what's something everybody can contribute to like everybody has some kind of aspiration right whether they're living it or not um so I played with that a little bit on tour I would just toss it out there occasionally with some material I had about dreams in my set because I have terrible sleep problems so I I talk about that a lot in my show and then when I pitched them on the idea of dreams and they locked in I was like okay you're right how do you how do you

00:03:10 rehearse something that is UN spontaneous yes so basically what I did is I went to since I knew we were going to shoot in a comedy club because it was conducive for everybody being able to hear everybody yeah uh I I had four weekends and by weekends I mean Monday Tuesdays that I had off for my theater shows and I would go I would just do a complete crowd work show talking about dreams just so I could like get that muscle kind of I could hear the kinds of things that I would want to hear I didn't know if it was going to be all

00:03:40 musicians or all sports players I didn't know people were going to be vague about it and the more I did it the more I realized like oh it's still going to be incredibly random yeah everybody has weird dreams you wouldn't expect and then kind of Shifting off of that I didn't want the entire thing to just be aspirational cuz you also have like sleep dreams so we talk a lot about that as well cuz those are always [ \_ ] weird you talk about dreams in the in the sense of like hey like when somebody

00:04:04 says my dream is to be a baseball player and then also the dreams that occur in your sleep yeah like your teeth falling out [ \_ ] both style of Dreams yeah yeah I wanted to open up a little bit and just not stay on one theme for the entire show mix it up just a tad it was [ \_ ] fun dude yeah dude I had wild dreams last week I remember that what about dude one was it my trainer was like I got to jerk you off and I was like what and he was insisting on I haven't told him yet but um is that is that a text or you going to tell him in

00:04:33 person I'm going to tell him in person while he stretching you out I want to see his face um yeah and he's like it's going to help and I was like and I gave in I let him but it was okay okay Ed well at least yeah it was um how often do you work out now almost every day like five six days a week yeah dud go for you yeah like how far are you down like since you started the journey I don't know so in the last uh six weeks I've I cuz i' I got got into I got with this nutritionist who is like the you know your scale

00:05:04 numbers are just nonsense it's about body fat so I'm down 7% body fat in 6 weeks yeah what is your body body fat percentage right now uhuh it's 18 that's not bad it's not horrible how are you 40 45 Jesus Christ okay it's really good then no it's okay I mean I think it would be great if it was like right now I'm trying to get to 15 and uh you know then you kind of I think you just evaluate everywhere you're at I think if I got to 15 I'd lose all my fans they would hate you so much yeah I think so what are you at you

00:05:39 have to be like what 10 I think I'm like nine it's pretty low yeah I know now I would be catatonic if I got to nine but um what's Bert you think Bert probably like 45 something like that that's not great that's not great no he's probably he's probably he's gone he's he's he is wild ranges too like I I have too but I think he's like he probably has a he has a decent amount of lean mass I think his visceral fat is that's like uh kind of morphing its way into his organs is I would say he's probably in the

00:06:19 mid oh oh you can go wait you can Google this glasses I don't know if he has a 40% I don't think he's he's not 40 I mean look at the picture scale though he looks like the worst picture but I think that I think he's probably closer to 30 I think he's close to 30 I don't think so I don't think he has those hips no no it evens out he does look like the far right whatever that is but but he also he doesn't conservative he looks he looks like it when he um at his profile at his profile he looks like a trans man

00:06:56 having triplets but straight on you know he's got good shoulders and stuff he's been he's been to compliment shoulders alone is not a really it's his favorite thing to talk about it's his only thing he talks about is his shoulder he's like I have great shoulder [ \_\_ ] I don't know dude he's a crazy person um yeah I I don't know but yeah no I I mean I think the fun here's what I've learned about myself I have to keep uh announcing new goals okay so like a year plus ago I was probably at 18 or something and it's a slow once

00:07:31 I get there for everyone's like you look great and then I'm like oh yeah everything's good then I start to slide that happens to everybody though but for me I realize that like if I like my goal is like 15 and then when I if I get to 15 I have to establish whether it's saying okay it's now 12 okay whatever it is I can't just go like I'm good now I have to even even if it's like not no longer the percentage if I go well the next goal is a half marathon I have to shift to something else yeah otherwise I

00:08:01 just fall apart okay and what helps you the most are you big on cardio or is it mainly diet for you well the shift has been the combination like I was working out the the past few months too but I wasn't focused on diet so what I did was I I got this nutritionist that gave me like a structured I like structure I like this is breakfast this is your snack this is lunch this is dinner so I follow what he says to a tea and then all we did was we dialed up workouts a little bit my cardio sessions went from

00:08:33 45 to 60 so 60 Minutes on like a pelaton bike or like rucking or whatever and then my weightlifting sessions pretty much the same went from like 45 to 60 so it's that's not a dramatic no but an extra 15 minutes but it's a it's a little bit more the dude the these [ \_\_ ] endurance pelaton rides oh I'm sure are [ \_\_ ] to brutal and I can't get myself to do I can't get myself to ride a bike dude those are like I mean they're very engaging and the teachers like the the instructors that are on there they fine the guys too and they're

00:09:09 and they're they're it is incredible workout and then dude here's the thing that I didn't expect is that doing this clean eating like and I don't I'm like I'm not suffering it's not like how am I going to get through this it's it's very like it's easy to follow okay it has completely changed my digestion really I was about to go to a gastroenterologist I'm not kidding like a month ago that bad yeah I was like how come I always have explosive wck like [ \_\_ ] so I need to go to the doctor and I started

00:09:39 following this guy's meal I go dude if no if I don't lose a pound I already thank you for changing my digestion like it's completely fixed it was that bad yeah I'm not a big [ \_\_ ] dude I'm really not here's the thing that I realize it's like all of us people have different sensitivities to like you know some people are like they just dump crazy hot sauce and and and

they're like it's not even hot and then you have a bite you're like Jesus Christ like our pallets are different our digestion is different I have if I have anything like

00:10:10 greasy mhm fatty it's like it's game over for me it's no Burgers I mean no I don't really eat a lot of burgers no it's like I have I need to have like lean meats and I need to have uh I don't have dairy I just have like no Dairy bur [ \_\_ ] no but I still eat a ton of protein like I'm having 16 to 20 ounces of lean meat at dinner so like I'll have like three pieces of salmon or sea bass Jes sometimes like sirloin but a lot of seafood and now do you cook it yourself or do you have like somebody to help

00:10:49 organ yeah sorry I forg I forgot how well this podcast does sorry so um no but I mean I'll I'll make some stuff um what I make eggs in the morning um but yeah I dude I just eat that here's the thing I feel satiated I never feel bloated anymore I never feel like like I'm sick and I don't feel like oh my God are my intestines melting like do I have you know like my is my stomach falling all that is just from eating clean well what about when you're on tour though cuz it's the bigger it's a bigger

00:11:20 challenge oh absolutely cuz you can get a little bit of catering before and you can eat something after but the by the time your show's over nothing but like Fast Foods open anyways I mean here's the thing you we it's a lot of planning it's sharing what I need with everybody so that I'm not in a jam where it's like oh what do they have oh that's smart so you like we're Landing in cities and it's like hey have we found the place we're going to eat that makes a lot of sense my writer like Uncrustables and

00:11:46 like a fruit plate yeah yeah but at 45 it'll be different [ \_\_ ] but that's so far away yeah yeah yeah [ \_\_ ] I think it's 17 years away okay just relax damn dude yeah mine mine is even healthier now like I whatever was on I realized like some of the times you show up to a green room and it's your riter and you're like what is this [ \_\_ ] and they're like it's your Rider like and you're not touching any of it most of my rider was like I was getting stuff like from my girlfriend whenever she would

00:12:15 come on tour and stuff none of it was for my boys want something yeah I've got the uncrustable is like the only thing I touch on my entire writer that's a Bert like staple is it really you know they have protein ones now really yeah there's uh are you able to look that up there's like a there's like a protein uncrustable um there's like peanut butter and honey ones it's really [ \_\_ ] good uh I don't think it's either of those actually but I'm good to know I'm happy to know there's more options what's

00:12:43 what's his big um his big Revelation was like you can toast them or microwave like wait can you really yeah he's like that's the move and then he's like you got to it's like you put him in the microwave for like he said something like 7 Seconds right and then he's like it will burn your mouth so you got to like you you pierce it so that the steam leaves yeah there's barbecue chicken bites this is a [ \_\_ ] game changer yeah dude I had no idea you know I still don't eat the crust on them really yeah

00:13:10 cuz it's still crust it's still crust it's still just bread you cut you cut crust off I don't cut it off I'm not that organized but yeah I'll pull the top off and then eat the [ \_\_ ] first I mean a PB&J is the [ \_\_ ] it's so [ \_\_ ] good and it's apparently supposed to be I mean relatively healthy for if you need need a snack and just eating for the [ \_\_ ] I do the I do the split packs where it's like it's peanut butter and jelly in a in a packet and I fold it together tear the top off and so there's no bread and I pop it in and

00:13:43 that's a pre-workout in the morning I put honey packets on a little glucose Spike the perfect summer playlist may be elusive but one thing is for sure it gets better when it's

00:16:25 what this is a real thing yeah they taste delicious and and they work I think so theoretically theoretically yeah man guys and it doesn't look as suspicious put it on the shopping list you got it it's on the writer it's not as suspicious either yeah I did uh I did a commercial for uh I shouldn't say commercial it was a a video on my phone for bluechew like beginning of last year they ran the [ ] out of it and everybody online was like you sold out you're doing a a commercial for Viagra I'm like it took me 90 seconds to film

00:17:00 and it bought my mom a car yeah that's pretty cool yeah man no shame but this is far far more discreet you're not popping a pill you can put it put it in a [ ] smoothie if you want to wait what is it actual honey I don't understand yeah oh yeah so you actually put the honey in something like if you want to you just [ ] you could just slurp the packet if you want to okay that's what the peanut butter and jelly thing remind has with many people have praised Royal Honey for its potential effects on sexual Wellness improvements

00:17:30 in overall sexual performance increase libido and stamina that's [ ] affecting your stamina my boy my boy boxes on it really yeah yeah like when he whenever he goes to spar I didn't know that a huge percentage of NFL players pop a little bit of like seis Viagra before really so it's a more common thing yes but it's not it's not [ ] doses it's like a micro dose because it's essentially because it increases blood flow okay so like you can even people even do this like preworkout it's um but it's not like hey give me

00:18:06        whatever 50 milligrams of Ray Lewis was taking a handful it's a it's a supposed to be a smaller dose just for blood flow interesting and I guess it wouldn't go against any like drug testing right it's just I don't think so it's opening up your blood pressure medicine right technically I guess huh I'm not sure have you not have you not have you not used Viagra before yeah fine okay make you sure have you tried it yeah of course it's the greatest oh of course and the the funny thing is you go yeah I

00:18:38        don't need this right because you're like I I don't need this and you don't need it but sometimes if you have something to prove the first time I like my friends were talking about it I was like they're like you haven't tried one I was like why I don't I don't need like I assume that's for somebody who's like literally can't achieve an erection yeah think of it that was my perception and then they go so just try one and I took one and I was like oh it's a high school boner like it's it's like pointing at

00:19:06        the sky and you're like oh think about like owning a gun you know I mean like you don't need it it's [ \_\_ ] awesome to have it's cool to shoot it it's awesome to shoot it dude what do they say okay uh in this episode of this is the Shannon sharp and oo sinko one of those questions was coming uh really took Viagra for games according to you only need half a pill to be a beast on the field like he was listen to me it's an enhancement with the increasing blood flow to improve performance horizontally

00:19:31        depending on how you do it I don't know what you do at home but to improve yeah they work too stay with me now if you take half a pill before a game with a little bit of Red Bull it increases the blood flow which enhances performance I mean what he's saying is essentially what we were just talking about like like that is why people take it pregame it's it's a blood flow issue yeah but like what if it's not gone by the time the game's over oh it's not gone yeah but you have like wed up in the shower

00:20:00        well that'd be awesome if they were but uh you know the way that's supposed to work is that it you still need to be stimulated and so unless like you go looking at this field and all these guys makes my dick hard you should be able to not be hard you would think yeah depending on the dosage I suppose yeah but there's definitely guys out there who probably are like d I'm about to come this is f yeah but that [ \_\_ ] stays in your system though I've yeah I've used it before and then the next day you're still like I'm I got to dud yeah

00:20:30        yeah I'm ready to go I don't know if you're out there and you haven't tried it man just pop pills today see what see how you feel are you uh if if you're if you're going to crank one out are you a morning or nighttime kind of guy well it's a really good question Matt and I feel like I feel like I've changed and maybe this is related to age I am whether I'm cranking one out or uh making sweet love somebody who definitely wants to yeah of course with I love you um I I always want to sleep after like I want to even in the morning

00:21:09        well I I don't want to get up after that I'm saying I I don't I don't I want to lay around I want to be lazy so I would prefer an end of day crank okay they seem but they have different effects oh everyone's you know I mean look we all know that there's a chemical cocktail that your brain releases when you you know I don't know s tone and dump and whatever else happens it affects people differently I'm definitely like like and there's also a chemical released I don't know if you know this in your brain when

00:21:38        you're uh having when a partner and having an orgasm that doesn't release when you are alone like when you do it yourself really yes so that is like a a scientific proven fact that there is something that happens additionally in your brain when it's with somebody else so I don't know I've done I've done look I've jerked off at every hour of the day in every

setting in airports and in you know everywhere where you can imagine highways all of them man I've done it everywhere but ideally I don't want to

00:22:13 start my day with one unless you have the ache of like you got to get this out you know interesting see that's my coffee sometimes is jerking off yeah and then you're ready to go yeah interesting a morning one when you if it's like before noon it's usually an upper interesting 12 one yeah I don't want to I don't want to get out of bed yeah I I think about yeah I mean what how old are you though 27 28 28 it's like yeah I mean first of all I was drking off way more at 28 than I am now but uh are you

00:22:41 like once a week I mean no more okay good man but you know I just feel like I do think about I think about my day when I when when jerking off well also you're a lot busier now you got to fit it into the schedule busier day you penciling it in no but you know what there's shower jerks here's the love a shower jerk here really here's burn my shoulder out I I do like sometimes now that it's really you're putting it in my head a it can and it can be a post workout jerk so like I legs especially I've done the work you you have that

00:23:23 endorphins kind of cooking in your head and then you're like okay I can I can get one out right now and then I don't necessarily feel it but showers also don't make me feel like like if I do it there first of all I love the drain and I stomp it down the hole and you stomp it down like what you making wine th it's glue so and there's just so much of it I just make so much I wish I could show people how much I make like you come bars of soap it's so much that's disgusting it's Pro it's cuz you know

00:23:55 there's a contraction right yeah right your prostate I mean you're like you when you have an orgasm you feel duh du P the pulsing yeah yeah yeah yeah I mean I'm a minimum 12 13 pulses guy what and sometimes 17 18 yeah oh my God yeah yeah that's too much it's too much come I've said it my whole life I um I don't think I've ever had a woman with me who did not make a comment about it see I never I never like what do you have four balls like this is so much like yeah I never I never come a lot when I want to come a lot it wait it

00:24:33 varies yeah it's like the Quest for Kam a lot a little bit like I could lay I could lay in bed all day and and [ \_\_ ] hit collar bone by myself right the moment a girl's like come on my face by J SL like dribble sad drop comes out yeah man they like never works yeah you can never like conjure it UPS so be grateful yeah it's my it's the only you know thing it's you just have to hope someone's like thanks you yeah I mean I had so much uh like they're like I had so many times like high school college where they were like

00:25:12 what the [ \_\_ ] like this is so much that amount yeah oh my God although I will say this with age um the trajectory reduces you know what I mean that might check out actually the only time I think I've I've come close to your average I was like 15 I think got I it was my first hand job ever ever I maybe kissed a girl one time before this so this was a massive jump yeah it was so much she during the Act was like oh my God yeah yeah oh my God and not like it was concerning yeah like it scared her

00:25:53 probably scarred her for future experien she was yeah she was like is this is this what this is going to be like every time it was all over it was dark in the room there's no way I got all of it yeah I'm not proud of it yeah no I mean I know it's [ \_\_ ] it's wild that we make a mess it is we squirt every time yeah huh yeah one of my friends he's like one of my college friends he's like he goes dude I've always just been like [ \_\_ ] three drops come out like he's just he's like it's the sadest it's just like D I

00:26:27 wonder what that is there's got to be a science behind that something maybe your testosterone levels I don't know I so one time I was like I talked to a doctor about it cuz I

and I went to it with you talk to a doctor I was like concern I went into it with concern I was like here's what's going on and he was like uhhuh and then I told him the whole thing he goes consider yourself lucky and that was it he was like yeah you just have like a more profound orgasm that's it and your prostate is obviously

00:26:54 the one that is where the you know the fluid is being mixed up but your actual orgasmic experience I mean it's just going to change from person to person interesting now there is things right that like time since the last one obviously like you know like building up anticipation that could be it I mean that could be like that's factors um your level of excitement going into it maybe unexpected that kind of stuff affects things you know spont spontaneity affects it um I'm now I'm wondering if if you come better than I do like the

00:27:28 feeling I think I have a better feeling and there's no way that but like I walk through life sometimes just going I come better than that guy yeah yeah we're more than halfway through the year let's fast forward to the end did you check off your dream goals or are you still daydreaming if mastering a new language is on your list Babel's ready for you speak like a whole new you with Babel the science-backed language learning app that gets you talking wasting hundreds of dollars on private tutors is the old

00:29:03 what they deserve you know what I'm not mad at it one bit um did we play a clip we didn't oh my God oh my God we skipped the clip well we have to do an opening clip all right here's what I have I don't even know what this is I'm just going to play it anyway okay I am Trine J lendy I am a breeder to the VP to the vagina people okay this sh a big time oh is Randy don't bring anyone mother into this no Mom in the [ \_\_ ] stand welcome welcome to your mom's house with Tom sagur Tom and Christina pit

00:29:43 chrisa welcome to your mom's house [Music] [Music] [Music] how long is the song it's pretty long it's like 6 more minutes uh 14 years of that song every single episode yeah it's long it was longer than the video substantially cut like cut cut the song Down we've never talked about that you you can by like a third there no one will notice let's see it there's um there's a couple versions what's the uh is this the one this is time who is Randy JH Potter doing version I don't like this more um is there another one one I hope not I

00:31:01 don't think so yeah it's very long um cut it down dude easily 50 seconds we will definitely have that conversation um who made this song do you know yeah uh Ryan match the match man oh the match man the match man Ryan match is he world renowned he is for that song okay yeah it's the free bird of podcast yeah he did um he did like all of our um like when when we started doing the podcast I love audio drops you know like like sound and I was like I don't know how to do anything and he was he was very like

00:31:34        proficient in audio and I was like yeah I need like an opening song and all this stuff and he just I think it was like whatever Protocols or whatever the previous version of that was and he would just send me clips I was like I want it to sound like this and have this audio clip in it he just did it all at no point 14 years ago you went a little long I probably did and I think I was just like didn't correct him oh I just think I was probably like I don't have time to edit this and I don't know how so just like do we get to

00:32:02        watch the video again we can watch the the video again um so this guy said he's a breeder of the vagina people I am jine J Lundy jine Lundy I am a breeder to the VP to the vagina people he puts out he puts out more than like I am J Lindy I do not eat feces poop [ \_\_ ] ass farts or drink urine or pee say what you want is got a good head on his shoulders he does he does and he has an interesting beard takes you think he dies that I'm going to say that that is I think that is how the the color is naturally um cuz you know like mine is a

00:32:52        version of that right it's just shorter yeah the gray comes in areas it's still darker here here the thing the only thing that throws me off is how dark the mustache is compared to it like there's not even a hint I also don't know if he's 32 or 48 he could be in his late 70s yeah we don't know but he's letting you know that he doesn't eat poop farts he went into p and ass too which I'm like this is a whole different this is like a quite a wide I mean farts aren't even like a physical thing really yeah

00:33:22        who eats them I mean I mean somebody does yeah some people it's have you seen the Chuck Barry videos yeah yeah great stuff oh yeah did I fart in your face and he's like I likes to do that and he does um well he did the he's like my bad like he farts once he goes yes sometimes I do that he said I likes to do that that's the that's the craziest thing ever after you fart after you fart her reaction is so genuine he says did I fart yeah yeah yeah you know you did of course on purpose he timed it and that's

00:33:57        the rudest part her face and her mouth yeah I saw that one too that's pretty that's pretty cool she made a lot of money for that era I would imagine you think sheat do I eat ass yeah this will be all over every tabloid ever I'll do it I'll do it I'll do it but it's not like you're favorite it's not myo no it's not my go-to right but if they want it yeah I'll do it oh so they have to ask for it yeah not necessarily like not directly hey will you eat my ass but like if it comes up in conversation casually at dinner or

00:34:29        something then I'll make note of it oh later is that something that happens do people bring that up at dinner sometimes depend on how you want the dinner to go so they're just like what are you into and like it's just straightforward okay it sounds like you're about to shoot a scene or something I I've I've I've considered the fact maybe I'm vanilla in the bedroom cuz I won't think I will and then I'll hear about what other people do and I'm like I don't want any part of that really like what no I don't want

00:34:55        anything with my asshole at all touch don't touch it at all not have your ass eat if you even go g I'm I'm clenching really I'll snap a finger and you've never so you've never had someone eat your ass no nor should they okay and then so like if if you're with a woman and she inches her ass towards your face does that hint is that you're like oh she wants me to do this is that also what you mean I mean read the room you know what I mean if there's candles I'll do it like okay there's got to be something something romantic about

00:35:25        it I think yes that's not a SP spontaneous act you know what I mean like yeah if you're not if I'm not like at a mall or something or in the car I'm not doing it then you know it's it's some ass in a car is pretty insane yeah you got to pull you got to pull napkins out of the glove box and [ \_\_ ] yeah just pull over I'm going to eat your ass right now no that's that's such

a level Foot Locker was [ \_\_ ] I got to [ \_\_ ] eat your ass um yeah I have you have you had your have you had your but hole I've

00:35:52        been begging for it for years she's ready her mouth looks like a asshole right now actually actually it really does no I really have asked for it forever you want it big time now do you want you think it's because you think it's going to feel good or do you want it because you think it would be funny to make your wife do this no I think it would feel good all I've heard from friends who have had it done are like yeah it's amazing so I'm like oh I want to feel it yeah but like she she won't dude it's it's not happening on your

00:36:20        deathbed death that probably the worst place to do I think every day that passes it's it's a real missed opportunity for it's only getting dirtier yeah well it's just it's getting older it's getting more sour oh my God it's getting hot sour is the worst word to use for I am thinking about lasering my [ \_\_ ] hair though not waxing I've done that oh I bet lasering [ \_\_ ] hurts I think it would too but I think you waxed it I've waxed it before how bad is that hurt not bad at all not that bad no now do you go

00:36:54        to a place to do or you just lay some duct tape back there I I've I've gone to a place to do it and it is [ \_\_ ] like I like the first time I did it as a joke uh like yeah I did for who a radio bit and then you did it for radio was it was there video yeah there's video okay I thought they were just listening to what being done that's what most people were doing so you're like yeah that but whatever I only did it cuz I was like man there's so much hair just do it like and then the great thing was you wipe and it's like you're

00:37:23        wiping like a normal person because you're like there's no hair back there hm it's if it felt so good so I was like oh it cut down my my wipe Time by like minutes yeah you're not dread it up back then yeah man and then years later I was like oh yeah that was great so I did it again this time I was like hi can I get my ass waxed and they were like okay and then they're like can you spread you sit there you spread your cheeks yourself you spread your own ass you spread your own ass and you feel like someone's

00:37:49        going to [ \_\_ ] it like that's what you feel like when you're doing it and then again whatever four or five weeks of just glorious it only lasts four or five weeks something like well until it's like not full length again but like now is it like when when hair grows back is it prickly when it GRS back a little bit and it's a you know not too bad a little itchy not too crazy nothing where you're like I can't get through this like a cat's tongue but like you know I mean that's my chest bro yeah like imagine if

00:38:17        you just [ \_\_ ] on that do you think it's going to be easy to clean up I'm sure a print somewhere would I mean I'm sure they would too but I just go I I realized I was like oh if lasered it it could be like I don't want hair lasering [ \_\_ ] have you had any kind of laser before no I got a tattoo removed and it [ \_\_ ] hurts dude yes my friend had his back lasered and he goes if you ever have hair lasered he goes they'll offer you numbing stuff and he goes always say yes oh yeah he goes the first time I was

00:38:48        like no I don't need that and he goes it is brutal so I was like okay yeah hairy back too uh it's like patchy it's not like covered yeah I think it's worse wor really yeah least patch you can get a good design to it that's true I've done trimmer to the back yeah you got to take a trimmer from time to time I suppose I've done trimmer but I'm not here's the thing I realize as you age you only you you address what you care about so like it do I don't care enough to go like oh man if my back really I don't care I

00:39:21        care that's the thing though it just it's it changes person to person like I'm bald and I've been offered free Turkish you know hair like they're like the masters of hair

replacement and they've been like we'll fly you out we'll do it the whole thing do it I don't care come on I care know about your hair I care I just I don't care enough you only you act on things for a radio bit do it have a [ \_\_ ] hair trans would be so [ \_\_ ] funny it would be funny but also I would be miserable if I got like a bad like I would rather

00:39:55 be bald than have a bad hair what if the trade-off was if you get hair she'd eat your ass if she cared that much about it that's an interesting proposal but I don't know that she gives a [ \_\_ ] about it well what do you think well well that's not helping in either direction right now it's not a no it's not a no h h does she have any hair on her back no kind of a shame I know she's like a you know they're blonde she's blonde fuzzy like she doesn't have body I kind of have like blonde body hair like my arms

00:40:32 are like super fine like blonde ha you would you have do you have back hair if you don't trim not really really you're kind of hairless kind of I get it on my chest but it looks ridiculous do you trim it then yeah I'll trim it wait you get like little hairs no I'll get like the the full chest I'm I'm starting to get my stomach a little bit why why does it look ridiculous I don't know I just look like a boy who's been through a lot it just doesn't look natural whatsoever hilar also like I work on my

00:40:59 body like I don't want it to be hidden by hair you know I mean yeah wait so what's your routine like do you eat very clean I don't eat enough that's my problem um I'm not a big food guy like I really I don't even think about food until can I tell about my uh losing weight right now no I'm eating way more than I was eating a few months ago and do you feel like it's boosting your metabolism cuz I i' I've kind of noticed Trends in that before like if I if I forc myself to eat a lot for a couple of

00:41:27 days days I'll want to eat more the following days well the only thing that I've like for sure feel like I understand is that if you're training and you're under eating you're not doing anything you're not really repairing yourself so no that's my biggest problem like you're lifting and you're you're you're you're doing like intense workouts and you're just like I don't really eat you're not there's no progress yeah you can lean out but if you're already like 9% body fat yeah you have to eat you have to eat enough

00:41:56 that's my biggest problem I mean there's also never any time for I have like time two meals a day that's really all I have time for the rest is like I'll snack when I can I suppose I should be eating like no no I'll have like a protein bar I suppose Uncrustables uncrust yeah it's never anything like good for me I suppose and how about your actual meal meals are they like a burger steak I guess maybe some chicken so I mean it's on the right path it's just not enough of it I should probably be eating like 5,000 calories a

00:42:26 day you could Pro I mean probably eat 2500 you can set it up you know where like food is brought to you like when you're on tour especially you know like I I mean we get the meal before and then we usually get like burgers after or something but it's not as set I know but it's I wish I could get myself into a routine you can like I know you know you know what the thing to do is it's it's to it's to make it somebody else's responsibility so you say like this is what I have to do and it it becomes like

00:42:59 whoever on your team's thing of like this is like this has to be wherever we're going you have an assistant right yeah okay yeah I should probably get an assistant yeah but I mean like you know what I mean like then you would just be they would just show up here you go it's lunch you have to eat this you know damn that's a good point yeah you can just schedule it I 11:30 2:30 5:30 and 7:30 interesting yeah cuz you ever watch these videos of like Hugh Jackman talking about how he stays in shape for

00:43:24 for his movies he's eating all day like in between scenes he's eating full [ \_\_ ] meals he's working out the entire day I did was years ago I had a small part in a Mark Wahlberg movie and they would show up just like here you go scarf down food cuz he was working out like at [ \_\_ ] 3:30 in the morning he's an insane person but I mean it was here you go all day it's somebody else's job damn it's a really good idea yeah you should do that I just I don't know it's I feel [ \_\_ ] weird have hiring people

00:43:57 it here's the thing it's so hard really it's so uncomfortable to hire someone yeah how come I don't know just telling somebody to do something feels so uncomfortable what yeah I know you guys don't have to laugh do you pay them to well they laugh when they want what's so [ \_\_ ] funny go ahead are cute can I have one of them no ah which why why was that funny what's so funny you like telling people what to do okay there you go I want I want him he's awesome I can't do it dude I employ my friends which is like the coolest thing

00:44:47 about success to me but even that's like they they offer to help out with like [ \_\_ ] carrying a suitcase or something and I'm like no I'm here change for you you think so yes after a while it'll change cuz you'll want better work yes I hope so yeah you'll want actual results so you'll tell your friends to get other jobs and you'll hire other people no they're super talented I I love employing my friends I love it I love it I love I love it stop he's just saying that to be nice you guys are [ \_\_ ] mediocre best no

00:45:22 they're fantastic and they they they they listen to me no it's one it's one of the reasons why you're talking about things being uncomfortable though it is more uncomfortable to tell like your good friend like hey hey you work for me but yeah of course but if you hire somebody who's like I want a job and you go here's the job it's not uncomfortable I don't know maybe it's [ \_\_ ] relationship trauma that I I feel like if I ask somebody to do something for me it's going to get thrown back in my face

00:45:52 or somebody not even if I ask if they just do something for me yeah but that's I mean this is part of life but part of this is is 100% because they're friends so there there's a different Dynamic to your relationship I suppose so if I have like my good friend who I go hey you want to come work for me it is starts to be weird where you're like I need you to do that you feel like you're telling your friend to do something I even feel that way about my security though like my security wasn't a friend first what

00:46:18 do you feel weird about telling them I mean just when like I'm carrying bags and [ \_\_ ] out of the Green Room back to the tour bus or something he's like let me carry that I'm like I can I can [ \_\_ ] carry don't worry n let him carry it I should let him I have a hard time doing it though he wants to I don't know I feel like less of a man having another man carry my [ \_\_ ] that's his job [ \_\_ ] carry the bag open the door too yeah there's not much security risk I suppose you're right it's fine I got there was

00:46:44 this lady she you got a girl who was like me and my friend want to luck your balls in your ass which I'm not into that's a security yeah I had this lady she um she's come to a couple of shows talking about how like we're supposed to beat again together and all this kind of stuff and she's like she's older probably like 40s yeah and she came to a show maybe like a month ago and she brought this big bag full of gifts right which is not uncommon we get a bunch of gifts after shows and I love opening

00:47:12 them sometimes there's cool [ \_\_ ] in there sure and her phone was in there on record was on video record in there hoping to just catch whatever I'm saying or doing backstage how she intended and getting the phone back I don't know but my security uh the phone was open on record so she started going through her her [ \_\_ ] phone to see if there's

like you know an actual threat in near there on like notes or camera roll or something so when they closed out of the video they obviously went to the camera

00:47:40 roll to delete the video and the photos right before the camera right before the video were my face F like shitty photoshopped onto like models bodies and I was so [ \_\_ ] appall called that she didn't use my body yeah she could have just yeah yeah it's not that like I don't I didn't want to [ \_\_ ] her but I didn't want her to think she could do better yeah you know what I mean I totally understand that there a certain level of delusion I think yeah I've gotten hair I've got they give you hair

00:48:13 oh yeah yeah um I've gotten toenails here are my toenails yeah no letter to go with them wait just like in a bag yeah just in a bag I had a lady give me you just figure out what it is or it says something it looks like toenails um they're like I thought you might like this yeah it was like a collection too like there's no way she has that many toes and how do you it's definitely from a woman [ \_\_ ] they weren't painted could be a really cool guy I do have guy fans yeah huh it is optimistic cuz I'm thinking the ACT to do that just

00:48:46 feels very male like a woman doing that is like severely mentally ill a guy doing so his hair dog yeah but toenails is a is another level if you're like let me clip these make sure they don't I had a girl give me her family photo album what it was like photos of them in like it would look like the 80s like she was like a like I imagine it's her as a kid just family GA parting with the photos that she probably won't be able to find again I mean that's a really interesting thing to think about do she ever plan on

00:49:22 getting those back no or maybe the fantasy is yes that you're like I look through these I want to be a part of this I get you now you guys look like you have good holidays I've had uh it's another fun one oh people get scammed a lot I have a lot of [ \_\_ ] spam accounts of people be reaching out like hey this is my private account message me over here so many people you'd be surprised will come to shows and be like Matt told me to come here like he told me to meet him over here I I sent him \$1,000 last week I sent and he was like

00:49:58 all right now you can come yeah now you can come to the show I've been I I went one time my security was telling me that this was happening so I wanted to go listen to the conversation and I stood like on the other side of the door and a lady was like I've been texting with Matt for weeks we exp we we exchanged sexy photos together he sent me his dick like in show security a dick that was not mine she was like look he's texting me right now I'm standing on the side of the door my phone's not in my [ \_\_ ]

00:50:26 hands I'm like i c part of me feels so bad that somebody would fall for something like that sure but also like you take a little bit of accountability for go of course like come on come on but you know what it's it's the person is hoping that it's true so and I understand the Hope yeah but I've put out M I've put out so many messages being like dude I'm I'm never going to reach out to you you know what I mean a as a fan for for your safety and mine I'm not going to reach out to you from a private account I'm never going to ask

00:50:56 for money but by the way if you do get a picture of my dick that is your backstage pass that well I want to see I want to see what it is first you know what I mean yeah like a really sad dick like you thought this was M I'd be [ \_\_ ] furious yeah you ever thought about how you're going to be immortalized from your dick pics I don't have dick pics you've never sent one I'm too old dude like that's not true you never like sketched it out I mean I've looked at it through the camera and I've been like it I'm like

00:51:26 this is not good um I've always had a problem with statues statue dicks yeah man you've never seen a big statue dick ever I think so you're right and I think that I think that

part of that is so that the focus isn't on that on the Statue I think the artist these sculptors that do these incredible you know Michelangelo sculptures if they gave it a Hardy dick it would be such the F because you are fascinated by the fact that they can do the ENT ire physique perfectly and if it were like a massive hog you'd be like

00:52:02 look at this that's all you anybody now the flip side of that is everybody talks about how little they look see that's what I'm talking about I think it comes from jealousy like you don't the usually sculptures and these statues are from like great leaders or conquerors right you know sculpt my man on soft when he conquered [ \_\_ ] Persia or whatever was saying just give me like if you were doing mine I would just be like okay I'm going to fluff it a little bit Yeah naturally right and so that like when I

00:52:29 when I drop my my robe you're like is that your is that your natural state and I'll be like yeah yeah and then you know I'll give you a little wink and I'll be like don't make it look like you ran out of clay and then I'll go like hey you good and then if you go like well no I'd be like all well give me a few minutes and I'd turn around smack it around a little bit come back like that's what I would do if I was going to be photographed or a sculpture made the problem is the sculpture takes so long

00:52:55 eventually it's going to lose its fluff I know and then I just sitting there just cranking and he's like what are you doing I'm like just relax it'll be back to where it was in a moment I think if I ever if I ever take another dick pick I would or if I'm G to have somebody paint me or sculpt me I'd want to be want it to be a caricature artist oh they always they always emphasize your attributes yes they do yeah yeah never thought of it like that yeah they always yeah I know a couple you get done like

00:53:20 Fairgrounds I I there's who's the who's the great one that we worked with you had a caricature done I don't know what name I I'll get it from Reed okay um no we had we we had these guys at a party and they they had this these two artists who um they both have incredible like followings they're like super talented guy and they came to a party that we had and the poor OS event and they just like they did it for people that were at the event it was [ \_\_ ] hilarious that's really funny but I'm drawing a blank

00:53:49 right now on the on the name um yeah super funny these guys one of them so mean one yeah yes they're super mean and one of them just does like a lot of just graphic sexual stuff like very aggressive on the cares yeah yeah yeah yeah like for us I think he was just one for one of no for uh Philip Lee was there he just put him in a clan Clan outfit and just like yeah running he'll add that much he just added that yeah and then that's really funny uh you have it no she's grabbing the actual ones we

00:54:24 have here okay oh you have them in here yeah yeah so here we go oh yeah poor porest Walker is one of them oh my God is that Hulk Hogan and then and then Todd what's Todd Todd Francis is that his name I think so yeah I can't read the signature Todd Francis on top poris Walker on the bottom yeah yeah he yeah Hulk down there yeah these guys are so good and they did what's the what's happening in the top one it's um it's me eating popcorn as as um protesters are getting beat to death by police yeah yeah those guys and they do

00:55:05 that in like 4 minutes are you serious yeah you just sat there and they were just like that's incredible man I can't draw at all no I love it it's it's so cool like that what was she brought she brought another one oh there's another one yeah what's the other one oh yeah um that's another porous Walker on top there are you [ \_\_ ] through her through her legs yeah yeah and then that when there's a car accident oh my God we flying through the air yeah so that's Todd and that's porous again you guys

00:55:34 have a weird love language yeah the [ \_\_ ] stuff yeah have you ever done um you ever gotten a blumpkin no you know what it is though right yeah sure okay have you gotten one no I would not I would doesn't seem like it would be I'm not letting anybody in the bathroom when I'm taking a [ \_\_ ] let alone blowing you during it it always sounded for them to be to that I think is more concerning of course it is it's so much more disturbing every inhale is just a nightmare I mean have you taken an upper

00:56:04 decker no feel like something Bert would do a th% I'm sure he's done that it ruins the whole Plumbing right cuz isn't that the water that flushes into it I mean dude it yeah I'm not into any of that bro like I can talk about taking shits all day I don't want to actually participate in any [ \_\_ ] activity this feels like the platform for this you ever seen poo.com no LZ I wonder if it's still a thing I haven't seen it since like high school [Music] LZ so remember remember like two girls one cup yeah it's a whole website of

00:56:43 that yeah oh this that first one was a girl stuffing herself and puking that's pretty cool oh that's a big old [ \_\_ ] that's just a waffle house floor a lot of sh [ \_\_ ] yeah yeah you realize that some of these are like super nice ladies like if you met them you'd be like oh she was really nice and then you see her on the site and you're like what the [ \_\_ ] and she's like yeah it's my job it's just like just do this you just don't have to do this what's really fascinating is how different um our genders are because it

00:57:18 is this is men going to the site you know what I mean like yeah there yeah there's a couple completely bananas chicks that are assuming this but the reason this is made is solely because of men what do you think the most [ \_\_ ] up fetish a woman has for men that's even close to this direction you think I mean there's here's the thing they're outliers chicks you I'm good now um they're they're not they're not most women you know what I mean like most women well this isn't most men it's not most men but it

00:57:53 disproportionately meaning like you know there's women obviously who goes I like to be slapped I like my hair pulled I like to bites I like uh choking things like that sure there's girls who are like I like you know what I like being pissed on and you're like that's pretty crazy but for men it's the the the sky the Lim like there's there might be like you know this percentage whatever to and then you look at men and it becomes like 25% it's like it's it's so disproportionate I want to hear the comments from women who think they know

00:58:24 the most [ \_\_ ] up fetishes what they're into I did so I talked to a guy one time this was great he was like he had just gotten divorced and he was like you know first time like playing the field right and he and I go oh have you had some crazy you know encounters like since you've just been out there dating for the first time in years and he was like I I thought this was kind of CRA I guess it's not totally Banas but he was like he said it stunned him where he's like I was with this woman and she goes well

00:58:55 I'm on my period and he was like I don't care you know so I was like yeah it's not whatever so he's like we have sex and it is a mess right he's like and he's like I don't I'm not bothered by it or whatever yeah he was but then she orally cleaned it all up off of me and he was that I was like yeah she lied all her own blood off of him everywhere but she was like he's like not there wasn't an inch like a speck left he was like yeah that threw me off now that's not the craziest thing I've ever heard no

00:59:25 but it's also you're like have to do that you don't have to do all that yeah but also that must turn her on she liked it vampire maybe yeah do you believe in Vampires totes totes yeah what about aliens I can't wrap my head around the idea that we are alone in this impossible right it's just too massive yeah it do you believe they come here I mean it makes

sense that there's some type of monitoring or interaction in some way it just does I I I don't know the details obviously I don't have all the answers but I just I I find it

01:00:08        hard to just go yep I know that the this galaxy is a spec in the universe is like it's a 100 million times beyond the capacity of our imagination is it size we're just a tiny little Dot and then you're like nah uh just I just I it's it it just doesn't add up in my mind ghosts I've never been a big ghost guy and I I know people love and they're like I was in this basement and then the door shut I says what the [ \_\_ ] was that so now we always go two of us to The Bard okay so I mean I I I people have

01:00:48        their I've never had like Ghost Encounters or whatever but it is it's look all that [ \_\_ ] ultimately is kind of entertaining it's kind of fun it's fun for sure but you don't believe when you die you could become a ghost I don't know I mean I have been in like spooky you know haunted feeling places right um you you never been like ghost hunting though I've never been ghost hunting I've been in in buildings you know like where you're like [ \_\_ ] this is The Comedy Store it's dark you know like the uh the like like hallways

01:01:21        that are 100 years old and you're like poorly lit I don't part of that's like you know the Ambiance where you're like feels something I mean did I experience something where it changed me no but I do think it's entertaining I do think it's entertaining what funny is there are people who are hear this be like can't believe this [ \_\_ ] idiot doesn't know about ghosts and you're like sorry that's my community dog yeah yeah you big ghost guy oh I love ghosts have you had Ghost Encounters okay I haven't seen

01:01:48        anything like I haven't seen something in front of my face that I go that's a ghost 1 billion per that's that's somebody who died for sure um but I have seen things I and heard things I cannot possibly explain uh um I was ghost hunting in England this place called the ancient ram in it's like a thousand years old you were ghost hunting yeah okay this is something I do for fun all right man you s super weird hobby I know I know no I like it I like it but I won't get my ass eight is that weird that's the thing

01:02:46        believing right or hear hearing is pretty [ \_\_ ] definitive do people actually say that They Se like they say they've seen things do you ever believe someone that's seen something like as opposed to like I could believe it I could CU I've seen things move you have I've seen when we were at this place we're sitting around like this Barrel right and there's supposed to be like a lot of [ \_\_ ] like evil at this place and the guy who owns it was like I I don't recommend it but if you want something to happen like provocation

01:03:15        usually it works like be an [ \_\_ ] I don't [ \_\_ ] I don't do that [ \_\_ ] I don't want anything being mad at me we're sitting around this table nothing's happening we have like a little uh it's a super basic tool to use little catball right little light up ones then the idea is they only go off when you when you touch them so we sit it in the middle of this Barrel when nothing's happening my friend goes all right we're going to start being mean so there's like five of us and they're all going around the

01:03:38        table you [ \_\_ ] [ \_\_ ] [ \_\_ ] [ \_\_ ] it gets around to me and I just go yeah you dooky head CU I don't want anything to be actually mad at me this ball then does a controlled roll

around the barrel not like bumping into a table like it rocks back and forth it is it's like a controlled roll for a couple of seconds doesn't that freak you out freak me the [ \_\_ ] out for sure on Q when the last person says something mean that happens it's a bit coincidental now is that the kind of thing where you go let's let's High tail
